# Environment

**Taking Care of the State We Call Home**  
At Georgia Power, we challenge ourselves every day to preserve the environment and strengthen the communities in which we live, work and serve.

## A Balanced Approach

Georgia Power is constantly looking for better ways to generate electricity and minimize environmental impact. To help us take care of the state we call home, we challenge ourselves every day to preserve the environment and strengthen the communities in which we live, work, and serve. To help guide us in this effort, three principles serve as the cornerstones of our environmental commitment: Solutions, Balance and Stewardship. Read more about our balanced approach. Georgia Power is constantly looking for better ways to generate electricity and minimize environmental impact. To help us take care of the state we call home, we challenge ourselves every day to preserve the environment and strengthen the communities in which we live, work, and serve.

### Our Environmental Commitment

To help guide us in this effort, three principles serve as the cornerstones of our environmental commitment: Solutions, Balance and Stewardship. Read more

#### Solutions

What are we doing to improve on our good environmental record and the environment in our state? **Learn more** about our solutions for the **air, water, and land.**

#### Balance

How are we balancing environmental requirements with your growing energy needs and the economy? **Learn more** about how **renewables** and **electric transportation** are making a difference.

#### Stewardship

How do we manage resources in our company and communities where you live? **Learn more** to see how we use our **company's resources** and what we do in **communities** statewide to create sustainable change.

#### Our Facilities and Fleet

#### In the Community

**Georgia Power and You**  
How can you help us practice environmental stewardship? **Get involved!**

**Solar Energy**  
Is solar right for you? **Learn more.**

**Tips for Saving Energy at Home**  
Save energy and money at home. Check out our helpful **energy conservation tips.**

**Help Renew Our Rivers**  
Join Georgia Power employees in removing debris from our state's lakes, rivers, and waterways. **Learn more.**
